

# Filling the gap in intensive care - sharing an experience

Birgitte Graverholt, Hege Myklebust, Stig Rusås Jensen &  
Monica Wammen Nortvedt

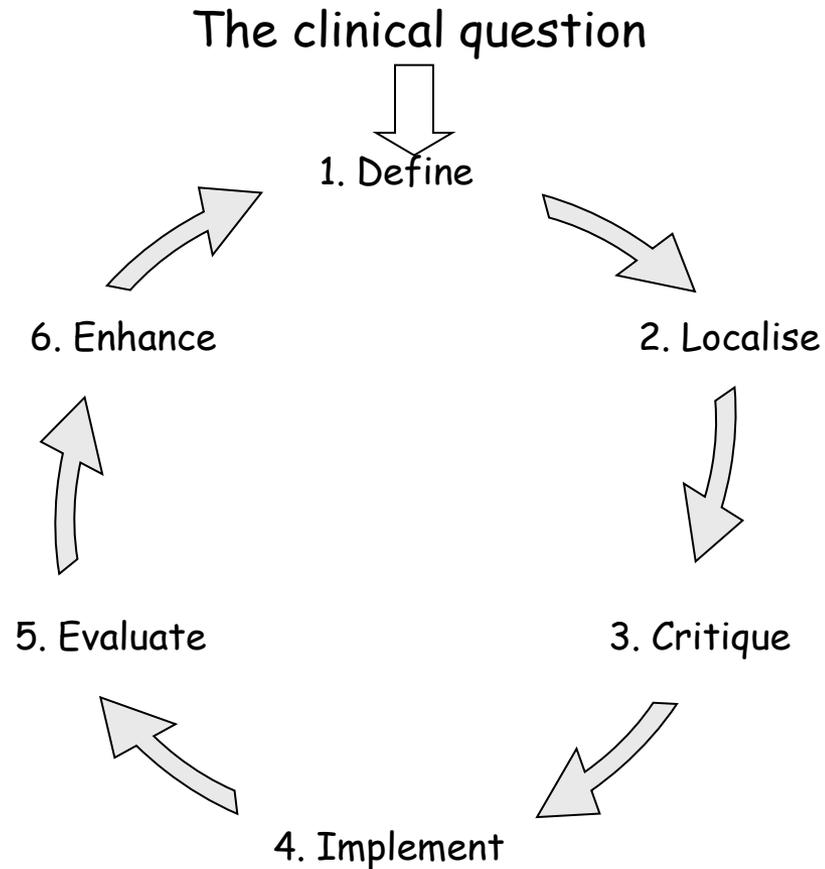

BERGEN UNIVERSITY COLLEGE & HARALDSPLASS HOSPITAL

# OBJECTIVES

- 1 To gain academic insight to the process of EBP
- 2 To inform practice

# METHODS

# THE EVIDENCE-BASED CIRCLE

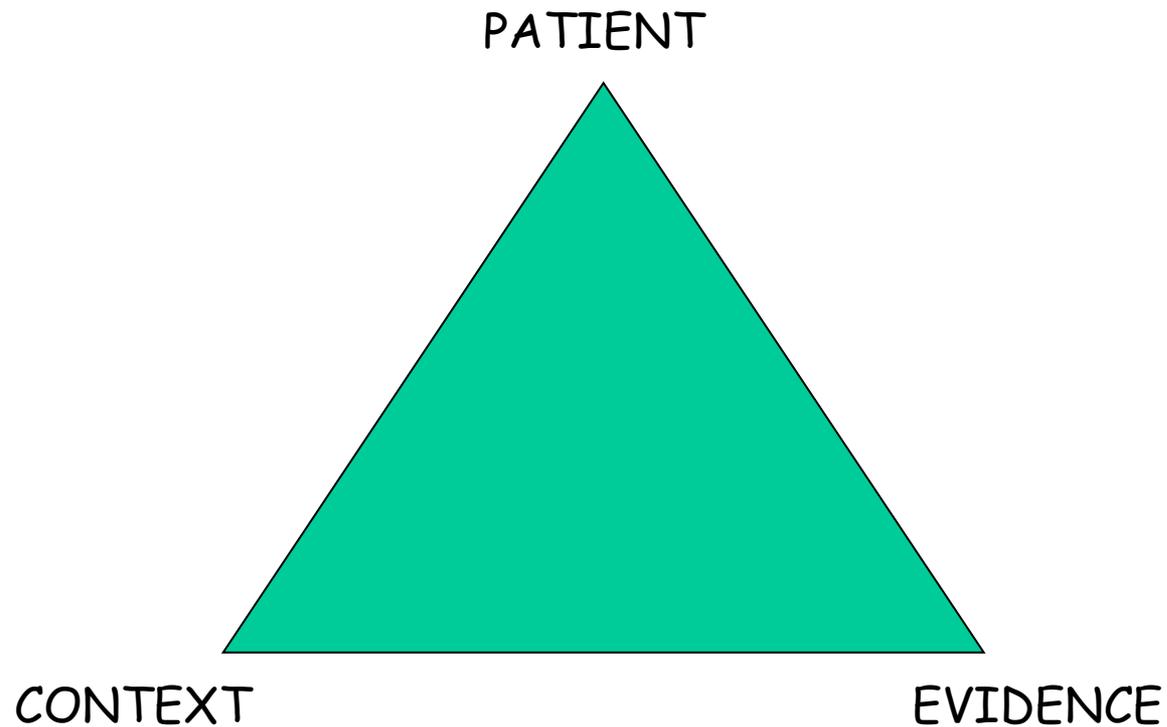

# PICO

- **P** population
- **I** intervention
- **C** comparison
- **O** outcome

# THE CONTEXTUAL TRIAD

# RESULTS

- The general knowledge about EBP has risen within our hospital
- The awareness of how to locate and access research has increased.

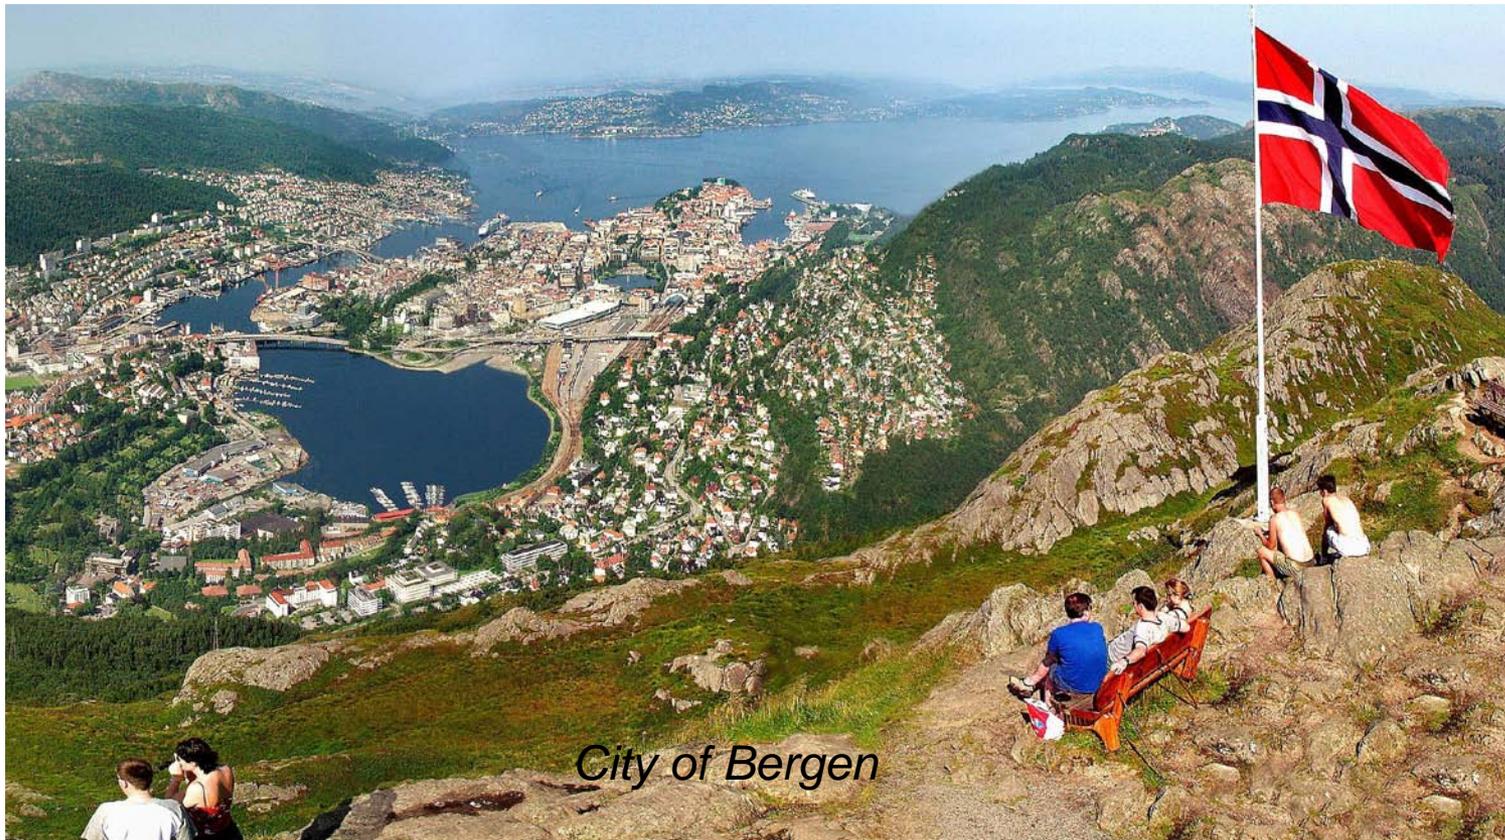

# RESULTS cont.

- A strengthened clinical practice
- An identification of a an area in need for further research

# CONCLUSION

- EBP was evaluated as a useful approach to answer clinical queries based on best research.
- Every member of the project group had to independently gain academic insight of every step of the circle.

# THANK YOU FOR YOUR ATTENTION
